

TURN DATA INTO INSIGHTS

Businesses are flooded with data from and about their vehicles and equipment. Telematics, GPS, ELD, Fueling, Maintenance, Repairs and more. But without the proper tool to receive and process that information you can be left data rich and insight poor!

Link-X takes all data points from your vehicle, unit or equipment and provides a platform that provides insights you need. **All in real time!**

TOTAL COST

MAINTENANCE SCHEDULES

**DVIR'S THAT INITIATE
REPAIR REQUESTS**

MANAGE REPAIRS

We will automate the data collection and integration from your other platforms or let our AI tool process invoices and add data into the system for you. **No data entry required!!**

**Better manage your business with the Link-X platform.
